## Commercial Refrigeration Equipment General Specification

### DW FROSTY BREW COOLERS

Deep Well horizontal Frosty Brew coolers include 4 (four) self-contained models in widths of 50", 65", 80" and 95".

### CABINET CONSTRUCTION

Exteriors of Deep Well models include attractive, wear-resistant vinyl on steel in black finish.

Bottle cap opener and cap catcher is standard with all models.

Tops include easy glide, stainless steel lids and stainless steel counter top with integral drinking glass stops. Lid locks are optionally available.

Standard interior metal is galvanized steel. Adjustable dividers included are epoxy coated steel wire.

Foamed-in-place CFC and HCFC-free polyurethane insulation enhances the structural strength of the cabinet and helps increase energy efficiency.

### REFRIGERATION

Frosty Brew coolers let you serve better tasting—thirst quenching ice cold (30°F—32°F) beverages every time. Constructed with high cooling RPM fans which provide fastest cooling (pull down) and ice cold temperature of contained beverages for pure, thirst quenching enjoyment.

Balanced, forced-air, lift-out refrigeration system uses R134A refrigerant, which is CFC and HCFC-free for compliance with environmental safety concerns.

Coolers feature oversized self-defrosting evaporator with dual fans to move air and larger coil for greater cooling capacity.

### ELECTRICAL

Units wired at factory and ready for connection to a 115/60/1 phase, 15 amp dedicated outlet. 8' long cord and plug set included.

### SPECIAL FEATURES

- High RPM fans provide greater cooling
- Oversized self-defrosting evaporator
